AND EQUIPMENT**

**WE ARE OUR CUSTOMERS
PARTNER OF CHOICE**

**DUE TO OUR EFFECTIVE PRODUCTION
PHILOSOPHY, PROFESSIONAL CONSULTING
PROCESSES INCLUDING WORLD CLASS
AFTER-SALES SERVICE AND SUPPORT.**

QUALITY

OUR PRODUCTS QUALITY ALWAYS STARTS FROM
THE RAW MATERIAL SELECTION:

We chose to utilize our own special formulation steel and CrMo alloyed steel that will grant the optimal mechanical properties.

Since 1970 we have proudly been producing and marketing high performing and reliable press brake tooling distinguished by the highest quality standards. Our production department equipped with high-tech machine tools, complimented by our wide range inventory, allows us to meet our customer needs and expectations for standard and special tool requirements.

EXPERTISE

EUROSTAMP TOOLING IS A CUTTING-EDGE COMPANY
WITH A POLICY OF CONTINUOUS EVOLUTION

RESEARCH AND DEVELOPMENT

WE ANALYZE SPECIAL BENDING PROJECTS
AND DESIGN CUSTOMIZED TOOLING
FIT FOR THE APPLICATION JOB

Eurostamp Tooling synonymizes Quality, Accuracy, Experience.

We produce extraordinarily precise tooling in addition deliver high quality affordable solutions for customers who constantly require the highest levels of performance and reliability.

Our tooling is produced by using medium carbon steel C45, both raw and tempered, and Italian high-quality chrome molybdenum steel.

All our tooling is then hardened by induction (HRC 55-60) up to 3mm depth from the working surface.

In addition to providing high quality Press Brake Tooling we also provide a large range of accessories for press brakes: lower and upper adaptors, manual or pneumatic clamping systems and more.

Our in-house technical department have the knowledge, experience, and expertise to develop fully tailored bending projects in a timely and accurate manner.

Eurostamp Tooling, always what you need.
